14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ►

Effective January 22, 2021 the GMO Global Asset Allocation Series Fund (the "Acquired Fund") was reorganized with and into GMO Global Asset Allocation Fund (the "Acquiring Fund") in a tax-free reorganization. As a result of the reorganization, the Acquired Fund transferred to the Acquiring Fund all of its assets in exchange for the Acquiring Fund shares and the assumption of the Acquired Fund's liabilities by the Acquiring Fund. The Acquired Fund distributed the Acquiring Fund shares to its shareholders, to whom the Acquiring Fund shares were the sole consideration received upon the reorganization. The fair market value of the Acquiring Fund shares received by each Acquired Fund shareholder was equal to the fair market value of the Acquired Fund shares surrendered (as of January 22, 2021).

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► In general, each shareholder has an aggregate tax basis in the Acquiring Fund shares received

in the reorganization equal to that shareholder's aggregate tax basis in the Acquired Fund shares surrendered in the reorganization.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates **See Attached Schedule**
