

# USONIAN JAPAN VALUE CREATION CLASS III

## OVERVIEW

Usonian Japan Value Creation Fund seeks total return and measures its performance against the TOPIX Total Return Index (the "Index") for performance comparison purposes. The Fund employs a fundamental, value-oriented approach to invest in equities of Japanese companies and companies tied economically to Japan.

In managing the Fund, the Usonian Japan Equity team follows a disciplined, bottom-up approach using fundamental research to identify equities that we believe are undervalued and profitable with high quality balance sheets. The team spends considerable time developing a high level of knowledge about our companies and focusing on downside risk. Additionally, as long-term investors, we engage collaboratively with corporate management to unlock shareholder value.

Net of all fees and expenses after reimbursement by the Manager, but not transaction costs, if any. If certain expenses were not reimbursed, performance would be lower. **Performance data quoted represents past performance and is not indicative of future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance data may be lower or higher than the performance data provided herein. To obtain performance information to the most recent month-end, visit [www.gmo.com](http://www.gmo.com).** Performance is shown for both the applicable share class and the representative share class in the Fund.

**Risks:** Risks associated with investing in the Fund may include: (1) Market Risk - Equities: the market price of equities may decline due to factors affecting the issuer, its industries, or the economy and equity markets generally. Declines in stock market prices generally are likely to reduce the net asset value of the Fund's shares; (2) Management and Operational Risk: the risk that GMO's investment techniques will fail to produce desired results, including annualized returns and annualized volatility; and (3) Focused Investment Risk: the Fund invests its assets in the securities of a limited number of issuers, and a decline in the market price of a particular security held by the Fund may affect the Fund's performance more than if the Fund invested in the securities of a larger number of issuers. For a more complete discussion of these and other risks, please consult the Fund's Prospectus. **Performance Returns:** Returns shown for periods greater than one year are on an annualized basis. Annualized Returns may include the impact of purchase premiums and redemption fees. The GMO Trust funds are distributed in the United States by Funds Distributor LLC. GMO and Funds Distributor LLC are not affiliated.
