

U.S. OPPORTUNISTIC VALUE

OVERVIEW

The GMO U.S. Opportunistic Value Strategy seeks total return. The Strategy currently seeks to profit from our Asset Allocation team's insight that "deep value" stocks are truly dislocated in the U.S. This actively managed strategy avoids the "shallow value" stocks, which are expensive relative to their own history, and focuses solely on the deep value names that GMO's Systematic Equity team identifies as the most undervalued, recognizing that relying on reported financials and index definitions of value can lead investors to misjudge the opportunity.
